Summary

I am a web developer having expertise in frontend development and exposure to back- end development. I design and develop web applications using the latest technologies to deliver the product with quality code.

Experience

Luminar

Intern Full Stack Developer
Jul 2022 - Apr 2023

- Designed and Developed Web application layout using pure responsive css
- Implemented forms to perform client side form validation using jQuery and JavaScript
- Developed interactive web application using advanced level of JavaScript, jQuery, AJAX, HTML and CSS
- Wrote JavaScript functions to extend existing jQuery plugins
- Implemented functions to call web APIs/services using AJAX and JSON
- Used React Axios to call Web APIs to fetch data from backend and update the states in the store of Redux
- Implemented MVC architecture for the presentation layer, created views for different action methods
- Adopted MongoDB for data storage, designed different schemas and data access services to communicate with MongoDB
- Used NodeJS and Express framework to build server side logic, and applied with middlewares to handle http requests
- Involved in design and development of Restful API and services to interact with data storage layer
- Used Git as version control

PROJECT

Full Stack Developer
Jun 2022 - Jul 2023

Movie App The frontend of the app is built with React and Redux. It uses a Material UI theme to provide a consistent and user-friendly interface. The app has two main pages a homepage and a movie details page

- The app uses React. Rediux Nodejs, Express, and MongoDB The app has a homepage and a movie details page
- The backend uses JWT authentication to secure the APL
- The app is deployed to Heroku
- Analyzed and optimized performance bottlenecks in 8+ existing back-end systems, such as database queries and storage solutions, to increase responsiveness
- Diagnosed and fixed report functionality issues by troubleshooting

Objective

Looking for a challenging role in a reputable organization to utilize my technical, database, and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector

Technologies

Microsoft SQL Server   JavaScript

HTML5   CSS/SASS   React

Node.js   Angular   Express.js

MongoDB   Redux   Java   Php

Tools

Git   VS Code   Webpack   Eclipse

Sandbox

Education

Bsc - Computer Science
Calicut, University   Jul 2019 -May 2022

Mern - Stack Developer
Luminar Technolab   Jul 2022 -Apr 2023
